## **ARTISTIC SCHEDULE OF CLASSES**

**Class 40: Inter Club Class:** Open only to Garden Club of Virginia member clubs and exhibited in the name of the club. All Inter Club arrangements will be displayed on a pedestal 42” high with a 12” square top, against a light gray wall. Arrangements not to exceed 24” in width.

### **Class 40A Belle Grove - Middletown**

Belle Grove is an outstanding early nineteenth century mansion set amid a large grove of trees which have been restored. An interesting demonstration cutting garden contains a variety of authentic plants. The plantation is surrounded by vast agricultural and orchard fields.

**A Federal Arrangement** berries and fruit are welcomed, however, cut fruit must be sealed.

### **Class 40B Wilton - Richmond**

Wilton, an example of Virginia Georgian architecture, was completed in 1753. After six different owners, it was purchased by the Colonial Dames in 1933. Due to the rapid growth of the city of Richmond, it was apparent that Wilton must be moved. The new location for Wilton is a bluff overlooking the James River. The GCV, starting in 1939, has planted the grounds and installed a pair of iron gates.

**A Cascade (waterfall) Arrangement** suggested by the terraces leading to the river at Wilton. Arrangement not to exceed 20 inches below the top of the pedestal.

### **Class 40C Monticello - Charlottesville**

The home of Thomas Jefferson, enjoyed by visitors from all over the world, is one of the most impressive tourist attractions of the Commonwealth. The first restoration done by the GCV was in 1927. In 1938 the plantings of the west lawn were completed according to Mr. Jefferson’s 1807 plans. The walks were laid, the fish pond rebuilt and the steps leading to the family cemetery were restored.

**Late Colonial Arrangement** suitable for a formal entry hall.

### **Class 40D Woodrow Wilson Birthplace - Staunton**

This birthplace of our twenty-eighth president is true Greek Revival architecture featuring large Doric Columns supporting the porches. It was built in 1846 as the manse for the Presbyterian Congregation of Staunton. From 1932 to 1999 the garden, brick paths, terraces, forecourt and a summerhouse have been restored by the GCV.

**A Pillar Arrangement**

### **Individual Artistic Classes**

**Open Classes – Limited to six entries in each class.** Classes open to all exhibitors. Arrangements must be the work of one individual. Accessories permitted unless otherwise stated.

### **Class 41 Hollins University - Roanoke**

In 1820 Hollins University was initially known as Botetourt Springs, a health resort. Over the years the name and purpose of this property have been changed by its various owners. In 1855 it was known as Hollins Institute. In 1911 it was named Hollins College and in 1998 attained university status. The GCV, in 2006, restored the Lucy Preston Beale Memorial Garden located behind the library. The campus is regarded as one of the most beautiful in the country.

An **Art Nouveau Arrangement** appropriate for a parlor placed on a round table 32” high and 72” in diameter divided into thirds by black niches 36” high and 24” wide with 12” wings. Table is covered by a floor length white cloth.

### **Class 42 Gunston Hall - Fairfax County**

The GCV, with the help of the Virginia State Highway Department, moved huge boxwoods, some nine feet tall and weighing over five tons, from Rockbridge County to Gunston Hall. Many bridges had to be reinforced to accomplish this task. These boxwoods joined the ones planted by George Mason who completed the building of this plantation home in 1758.

A **Naturalistic Arrangement** using some boxwood in the Landscape Design style placed on a round table 32” high and 72” in diameter divided into thirds by black niches 36” high and 24” wide with 12” wings. Table is covered by a floor length white cloth.

### **Class 43 Sweet Briar College - Sweet Briar**

Sweet Briar College, founded in 1900 as Sweet Briar Institute, was named for the abundant sweet briar roses growing on the plantation. In 2004 the GCV restored the entrance court of Sweet Briar House, the home of the president.

Remembering that Sweet Briar Institute was established to “educate girls and young women”, create a **Tussie Mussie** bouquet using miniature and/or polyantha roses. The arrangements will be elevated to eye level on a shelf covered by a white cloth and placed in a 12” space. Accessories permitted.

### **Class 44 Executive Mansion - Richmond**

Richmond became the capital of Virginia in 1779. The Governor’s Mansion was not completed until 1813. In December of 1925 the mansion was virtually destroyed by fire and had to be reconstructed. The Executive Mansion has been, from the time of its erection to the present, a center of hospitality and social gatherings. The GCV planted the gardens in 1953 and restored this richly colored garden in 2000.

A **Table Scape** suitable for a luncheon with the first lady of the Commonwealth of Virginia. The arrangement is displayed on a table 42” high and 30” in diameter covered by a white cloth. No flatware, food items, cut fruit or vegetables allowed.

### **Class 45 Grace Arents Garden - Louis Ginter Botanical Garden - Richmond**

The 1920’s garden of Miss Arents was restored by the GCV in 1990. The formal gardens with arbors, the seated trellises, garden house and seasonal flowers are enjoyed by many touring the Louis Ginter Botanical Gardens.

The members of the GCV wear many hats striving to raise funds to support and continue its restorations. They present, each spring, “the largest garden party in the world” - Historic Garden Week in Virginia. The proceeds from this event make their restorations possible.

Use your imagination in a **Creative Arrangement** in/on a hat. This arrangement will be placed on a round table 32” high and 72” in diameter divided into thirds by black niches 36” high and 24” wide with 12” wings. Table is covered by a floor length white cloth.

#### **Class 46: Novice Class Bacon’s Castle - Surry County**

Novice Class is open to those who have not previously won a GCV Blue Ribbon for artistic design. This 1680’s Jacobean garden was restored after archaeological evidence was found placing its original location. The forcing wall and flowers, vegetable and herb garden were all components of this large tract. Restoration was completed in 1989.

An **arrangement in a basket** featuring roses, vegetables and / or fruit. Cut fruit and vegetables must be sealed. The basket will be placed on a round table 32” high and 72” in diameter divided into thirds by black niches 36” high and 24” wide with 12” wings. Table is covered by a floor length white cloth.
